

Changelog

Orbits 5.15.1

Fixed

- Orbits not starting when default printer cannot be used
- Speedhive Feed does not upload runs status when run has been stopped
- Race by race breakdown missing when multiple races are merged into a points tally and added to a championship

Improved

- Updated 3rd party utilities Bonjour and 7zip

Note:

- The software will expire on Wednesday, December 4, 2028
- To improve support level and to ensure future compatibility across the chain, a new Orbits 5 version will be provided in advance of the expiration date and will be free of charge.
